Superior Mountain Living! This 3 bedroom, 3.5 bath townhouse enjoys an extra family room in a great, quiet location within complex. Beautifully appointed with granite countertops, stainless appliances, gorgeous travertine baths, hardwood flooring, tongue and groove natural wood ceilings, timber accents, knotty alder doors and trim, cozy gas log fireplace with stone surround, snowmelt system in the driveway and an attached garage. End unit location provides extra light. An extended deck allows for a relaxing hot tub after an epic day on the slopes. Enjoy ski area view from your master bedrooms. Did I mention all of this is just minutes away from the Steamboat Ski Area for skiing, hiking, mountain biking, restaurants and more. Or walk a few minutes to throw in a fishing line in Casey's Pond or jog down the Yampa River Core Trail along the river all the way to downtown Steamboat. Low HOA dues, superior finishes and a fantastic location. Impeccably maintained home.
