A true one of a kind gem on almost 5 acres with expansive views from Sunlight to Sopris to Snowmass. It has the feel of the country, but is just 15 minutes from Carbondale and Glenwood via paved road. It has high speed internet and school bus pick up. The expansive main home, known as the Spring Valley Castle, mixes updated finishes with country farmhouse charm. The separate cabin has been run as an airbnb with solid income history. To top it all off, it has a separate 4+ car garage / workshop. Incredible mountain and road biking, and hiking are right outside the door. (Check out fly through video of main house as well as photos)
